## *Applied Mathematical Sciences*

*Aims and scopes:* The journal publishes refereed, high quality original research papers in all branches of the applied mathematical sciences.

*Call for papers:* Authors are cordially invited to submit papers to the editorial office by e-mail to: [ams@m-hikari.com](mailto:ams@m-hikari.com) . Manuscripts submitted to this journal will be considered for publication with the understanding that the same work has not been published and is not under consideration for publication elsewhere.

*Instruction for authors:* The manuscript should be prepared using LaTeX or Word processing system, basic font Roman 12pt size. The papers should be in English and typed in frames 14 x 21.6 cm (margins 3.5 cm on left and right and 4 cm on top and bottom) on A4-format white paper or American format paper. On the first page leave 7 cm space on the top for the journal's headings. The papers must have abstract, as well as subject classification and keywords. The references should be in alphabetic order and must be organized as follows:

- [1] D.H. Ackley, G.E. Hinton and T.J. Sejnowski, A learning algorithm for Boltzmann machine, *Cognitive Science*, 9 (1985), 147-169.
- [2] F.L. Crane, H. Low, P. Navas, I.L. Sun, Control of cell growth by plasma membrane NADH oxidation, *Pure and Applied Chemical Sciences*, 1 (2013), 31-42. <http://dx.doi.org/10.12988/pacs.2013.3310>
